

iOS Test for Candidates

Here at Intesis, we love arguing who is the best comic super-hero. Too bad we don't have a cool app to explore the marvel heroes universe in our 📱.

Objectives:

Create an iOS application that communicates with the Public Marvel API and meets the following requirements:

- As a user I want to see a list/collection of items from the Marvel API
- As a user I want to search or filter the contents of this list/collection
- As a user I want to see the full details of any item from this list/collection
- Focus on showing your programming skills and feel free to use 3rd party libraries

We will evaluate:

- Architecture
- Swifty skills
- Code quality
- Usage of Cocoa Touch frameworks
- Autolayout usage
- Project structure

Info:

- Marvel API: <https://developer.marvel.com/>

Good luck and have fun! 🙌

Android Test for Candidates

Here at Intesis, we love arguing who is the best comic super-hero. Too bad we don't have a cool app to explore the marvel heroes universe in our 📱.

Objectives:

Create an Android application that communicates with the Public Marvel API and meets the following requirements:

- As a user I want to see a list/collection of items from the Marvel API
- As a user I want to search or filter the contents of this list/collection
- As a user I want to see the full details of any item from this list/collection
- Focus on showing your programming skills and feel free to use 3rd party libraries

We will evaluate:

- Architecture
- Usage of Kotlin
- Code quality
- Project structure

Info:

- Marvel API: <https://developer.marvel.com/>

Good luck and have fun! 🍀
